Don't have an account? [Register](#)

1. First create a login page. (You can use HTML, CSS or Bootstrap).
2. Authenticate the username and the password using **Passport.js**.
3. Store user's session information using **Express – Session** and display the number of time that user visited to the same page as following image.

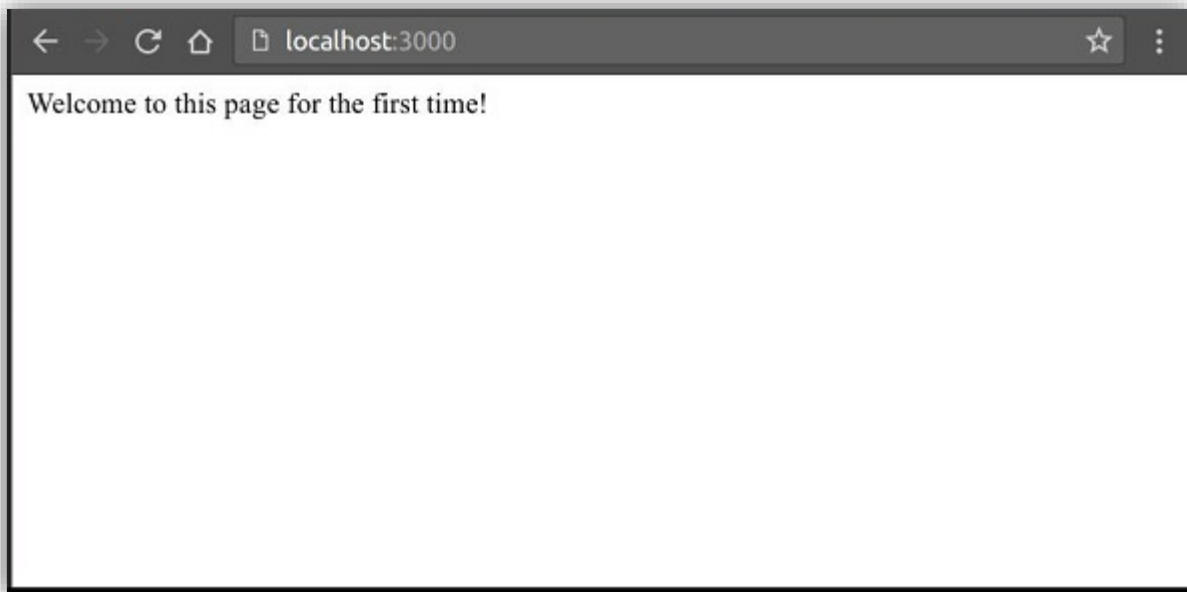

Figure 1

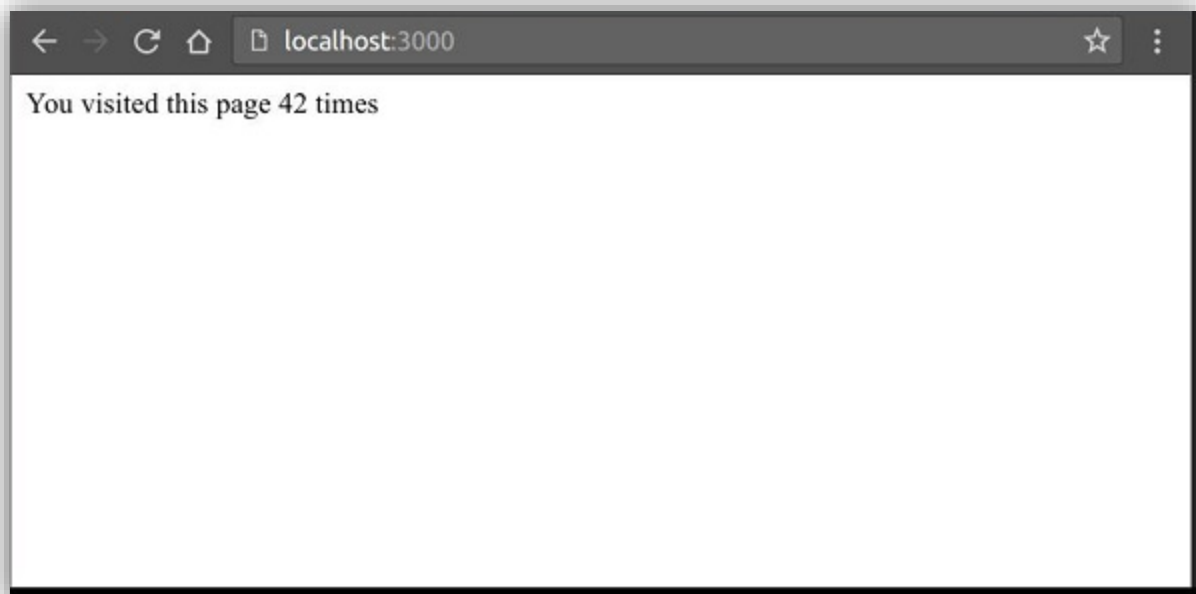

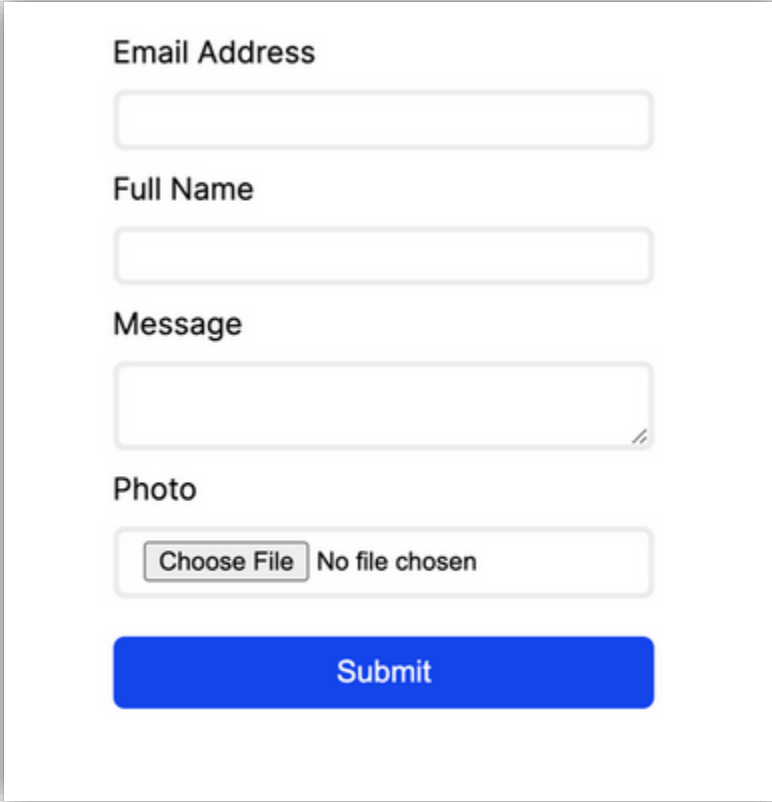

Figure 2

Activity 02:

The image shows a form UI with the following elements:

- Email Address**: A text input field.
- Full Name**: A text input field.
- Message**: A text area input field.
- Photo**: A file upload field with a "Choose File" button and the text "No file chosen".
- Submit**: A blue button with the text "Submit".

1. Create a Form UI (You can use HTML, CSS or Bootstrap).
2. Use **Multer.js** module for uploading files and store them.
